

Amendments to the Specification

- 1) Please insert the following title at page 1, line 1:
- METHOD OF CONTROLLING BURNERS FOR HEATING LIQUID GLASS
FLOW CHANNELS**

- 2) Please insert the following subtitle at page 1, below the title:
- Background**

- 3) Please insert the following subtitle and text at page 4, line 5:
- Summary**

The invention includes both methods and apparatus to achieve the desired results, as described, but is not limited to the various embodiments disclosed.

- 4) Please insert the following subtitle and text at page 4, line 23:
- Brief Description of the Drawing**

For a further understanding of the nature and objects for the present invention, reference should be made to the following detailed description, taken in conjunction with the accompanying drawing, in which like elements are given the same or analogous reference numbers and wherein:

- Figure 1 illustrates a graphical representation of the power ranges obtained by conventional methods and by one embodiment of the current invention.

- 5) Please insert the following subtitle and text after the above-inserted paragraphs:
- Description of Preferred Embodiments**

The invention includes methods and apparatus for controlling the operation of a burner for heating liquid glass feeders coming from a glass furnace, as described above.

- 6) Please insert the following paragraph at page 12, line 25:

It will be understood that many additional changes in the details, materials, steps and arrangement of parts, which have been herein described in order to explain the nature of the invention, may be made by those skilled in the art within the principle and scope of the invention as expressed in the appended claims. Thus, the present invention is not intended to be limited to the specific embodiments in the examples given above.

- 7) Please replace the subtitle at page 13, line 1, with the following text:
CLAIMS What is claimed is:
- 8) Please delete the 16th page in its entirety.
